Across

- 2. Gantt Chart
- 4. Progressive Elaboration Planning
- 5. Schematic display of logical relationships among activities.
- 6. A delay time between two tasks that have relationship.
- 8. Difference between Early Start and Late Start
- 11. The activity duration is based on analysis of the worst-case scenario for the activity.
- 13. A common technique of Define Activity and Create WBS
- 15. The task that has 0 duration.
- 16. The Longest Path.
- 18. Soft Logic

- 7. Task
- 9. It allows an acceleration of the successor activity.
- 10. The following task
- 12. A schedule compression technique in which cost and schedule tradeoffs are analyzed.
- 14. One type of logical relationships.
- 17. Precedence Diagramming Method

Down

- 1. A duration estimating uses a statistical relationship between historical data and other variables to calculate an estimate for activity parameters, such as cost, budget, and duration.
- 3. A duration estimating tools which is generally less costly and time consuming than other techniques, but it is also generally less accurate.
